

Community Air Mobility Initiative: Member Information

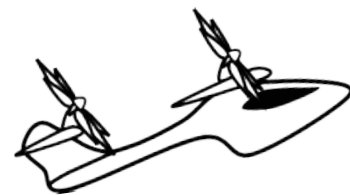

Join us today!

Thank you for your interest in joining the Community Air Mobility Initiative, or CAMI. Community air mobility is a collaborative effort, and we need the participation of all stakeholders in order to achieve our collective goals for a robust, responsible and reliable metropolitan air transportation system. At CAMI, our common beliefs are that safety is of paramount importance and being a responsible member of our communities is integral to success.

Member Benefits

As a CAMI Member, your organization can access industry knowledge, connections, and resources that help us all take to the skies as urban air mobility (UAM) becomes a reality. All Members have priority access to CAMI resources, which include online documents and videos, training and education opportunities, technical assistance, networking and collaboration opportunities, and public policy assistance. CAMI Members receive recognition for their contribution to the success of community air mobility through their support of CAMI. We bring a unique value to our Members by convening diverse stakeholders, brokering strategic partnerships, and providing a unifying voice to community air mobility. Support for CAMI is a clear indicator that an organization values the communities in which UAM will operate.

Organizational Membership Categories

Membership in CAMI is open to organizations that are committed to the responsible integration of the third dimension into our communities' transportation landscape. CAMI Membership levels are designed to provide each company with the opportunity to select the participation level that works for them irrespective of revenue or size. There are no requirements on the part of Members other than to share our vision and support us through annual dues. Supporting, General, Associate, and Ecosystem membership categories are open to interested qualifying commercial organizations. The Nonprofit/Government membership category is open to academic, governmental, and non-profit organizations.

If you have questions or would like to discuss joining, please contact us:
