

Rick Williams represents Science Applications International Corporation (SAIC), a FORTUNE 500® scientific, engineering, and technology company in the Columbia Region. He is a general manager and senior marine engineer with over 35 years experience in government and commercial sectors. He consults to industry on complex, multi-disciplinary technology projects, systems engineering and system integration as Chief Science and Technology Officer.

Captain Williams served 25 years active duty in the US Navy as a salvage diver, saturation diver, submersible pilot and submariner. He commanded the world's deepest diving manned submersible, DSV Sea Cliff, and was elected as a Fellow of the Explorers Club following the 20,000 foot dive expedition. He commanded the nuclear attack submarine USS SPADEFISH during two North Pole Expeditions.

*Rick serves on the Board of Directors of the Oregon Wave Energy Trust (OWET) and the Pacific Northwest Defense Coalition (PNDC). He is Secretary of the International Electrotechnical Commission (IEC) Marine Energy Systems Design Standards Project Team.*
