Homeland Security/Regional Disaster Resilience PNWER 2009			
Discussion Topic	**Action Items**	**Project Team**	**Initial Project Lead**
PNWER Center for Regional Disaster Resilience: Current Regional Initiatives	PNWER should explore with DHS and DOE the possibility of developing a course modeled on PNWER's Energy Legislative Institute to provide legislators with information on homeland security and disaster resilience. Explore the development of an initiative to increase understanding of cross-border regional infrastructure interdependencies that can impact response/recovery and restoration associated with large-scale disasters.
