Yukon Water Management Mandate

Issues and Challenges

Responding to Issues and Challenges

The screenshot shows the Yukon Water website homepage. At the top, there is a navigation bar with links for 'Site Map' and 'Contact Us', social media icons for Facebook and Twitter, and a search box. Below this is a blue header with the 'yukonwater' logo and four main menu items: 'Understanding Yukon Water', 'Managing Yukon Water', 'Monitoring Yukon Water', and 'Water and You'. The 'Yukon Government' logo is in the top right corner.

The main content area features a large image of a person in a wetsuit and hat performing hydrometric monitoring in a river. Below the image is the caption: 'Hydrometric monitoring during high water- June 16, 2014'. To the right of the image is a 'Welcome to Yukon Water' section with introductory text and a 'Yukon Water Strategy' button. Below that is a 'View Water Data Catalogue' button. The 'Latest News and Updates' section contains two articles: 'Living Water Policy Project' (dated July 7, 2014) and 'Yukon Water Strategy Released!' (dated June 11, 2014). The 'Yukon Water Strategy Released!' article text is: 'The Government of Yukon has released the Yukon Water Strategy and Action Plan. The strategy sets a foundation for making complex water management decisions and the action plan lays a path forward for how to make progress on the priorities and goals identified.' At the bottom left, there is a 'View more News and Updates' link. On the right side, there is a 'Get Connected' section with links to follow on Twitter and Facebook, and a small image of a town.
