Water Policy Working Group 2016

*Pacific NorthWest
Economic Region*

Through its Water Policy Working Group, PNWER provides an important dialogue to address water policy issues throughout the Pacific Northwest region. By connecting with legislators, private-sector and universities, we work to identify best practices to improve water security, adaptation of climate change, and storage options. We also provide updates to the region on the Columbia River Treaty and explore linkages with other working groups, including Invasive Species.
